

Audit and accounting assistance to subsidiaries owned by foreign parent companies

Redmark offers audit and accounting assistance and consultancy to small and medium-sized subsidiaries owned by foreign parent companies. In addition, Redmark offers consolidated reporting for Danish subsidiaries owned by foreign parent companies.

We offer accounting services to groups where the parent company wishes to use an audit firm with competencies in auditing subsidiaries and in consolidated reporting, but where the subsidiaries do not necessarily wish to use the same audit firm as the parent company.

Many of our customers have international business relations – and Redmark is with them all the way. Redmark is a member of MGI – a worldwide association of independent audit firms.
